September Gardening Tips

- Fall is coming! Plan your space then check out our selection of beautiful **fall annuals – vegetables (eatable and ornamental) - mums – pumpkins – hay – corn stalk – gifts** and much more!!
- **Be consistent with watering, especially with new plantings while the weather is still very hot.** Be sure to give container plantings a good drink of water every day when heat is in the 90's and up.
- This is a great time to lay **fresh mulch or pine straw** on your flower beds and around trees to help keep the moisture in the soil and prepare for the fall.
- Spray all shrubs and trees this month with a fungicide. A great product is **Fertilome's Broad Spectrum Landscape & Garden Fungicide.**

- Keep your roses looking beautiful and get rid of those bugs! Consider using either **Fertilome's Rose Food with Systemic Insecticide** or **Hi-Yield's Indoor/Outdoor Broad Use Insecticide.**

- This is a great month to **plant perennials**. Come see our selection of perennial plants that you will enjoy each year!
- Begin to plan and choose your **bulbs to plant this fall for spring bloom**. Check out our selection of bulbs and start your planting in September.
- September and October is when **cool weather vegetables** arrive. Make your plans and come check out our selection while they are in stock.

Lawn Care

- Apply **Fertilome's "All Season's" Lawn Food + Crabgrass and Weed Preventer** in September. Analysis: 16-0-8 with Trace Elements plus *Proflam*. Apply in fall 2 to 3 weeks prior to seed germination to obtain control of grassy and broadleaf weeds. For best results, application should be followed by ½ inch of rainfall or irrigation. See back label over overseeding/reseeding restrictions. Follow directions as listed on bag. 20 lb. bag covers 5,000 sq. ft.

- Apply **Hi-Yield's Bug Blaster Turf Insect Control Granules** in September **as needed**. Provides quick knock down and broad spectrum control of home invading and lawn insects including ants, fleas, mole crickets, chinch bugs, European Crane Fly and other listed lawn insects. 1.15 lbs to 4.6 lbs. per 1,000 sq. ft. Consult label for specific insect application rates. Please read and follow label directions.
